Please replace paragraph [0006] with the following amended paragraph:

[0006] ~~This object is achieved in that the above-mentioned gas turbine is refined by the features of the characterizing portion of Patent Claim 1. According to~~ In an advantageous embodiment of the present invention, the or each rotor of the or each generator is designed as a free-running generator turbine which, driven by a gas flow, rotates relative to the respective stator of the respective generator thereby generating electrical energy from the kinetic energy of the gas flow. This results in a totally novel concept or principle for the configuration of a gas turbine designed as a "more electric engine."
